SUBJECT INDEX*

A

Abdominal hysterectomy, total versus subtotal, (Masson), 110
pregnancy, a case of secondary, (Carrel), 111
reposition in acute inversion of the puerperal uterus, (Huntington, Irving, and Kellogg), 34
"shelf," operation for creating, in cases of visceroptosis in women, (Bonney), 738 (Abst.)
surgery, Lawson Tait and his contributions to, (Kellogg), 437
Absence of vagina, congenital, with report of two cases treated by a vaginal plastic operation, (Davis and Cron), 196, 256
Acid-base balance in pregnancy, (Gaebler and Rosene), 808
Actinomycosis of the ovary and tube, (Helwig), 288 (Abst.)
Adenocarcinoma of the uterus, a plea for early diagnostic curettage and routine microscopy of curettings for the detection of, (Ladin), 167
Adenomyoma, pedunculated cystic, of the uterus occluding the vagina, (Saylor), 650
Adnexa, inflammatory tumors of the, foreign therapy in, (Neverman), 33 (Abst.)
Alimentary acetonuria and glycosuria, diagnosis of pregnancy by means of a double test of, (Adlersberg and Porges), 584 (Abst.)
Amenorrhea, x-ray treatment of, with a report of thirty-eight cases, (Kaplan), 658
American Association of Obstetricians, Gynecologists and Abdominal Surgeons, Presidential address of, (Polak), 295
transactions of the, 432
American Gynecological Society, fifty-second annual meeting, 90
Amnion and chorion, inflammation of the, (Siddall), 828
Amniotic fluid, physiology of the, (Keiffer), 592 (Abst.)
transportation of coloring substances into the, (Sakuma), 592 (Abst.)
Ancients, gynecology of the, (Lash), 262 (Collective Review)
Apparatus, a constant-temperature, for use during continuous intravenous administration of fluids, (Watson), 865
Appendectomy, examination of the appendix and the indications for, in the course of 1400 gynecologic laparotomies, (Buettner), 739 (Abst.)
Appendicitis again, (Faure), 739 (Abst.)
Appendix, examination of the, and the indications for appendectomy in the course of 1400 gynecologic laparotomies, (Buettner), 739 (Abst.)
Arteriosclerosis, relation of hypertension of the menopause to, (Nielson), 212
Arthritis of the menopause, (Cecil and Archer), 884 (Abst.)
Arthropathia ovaripriva, (Menge), 883 (Abst.)
Asphyxiated newborn babies, a new apparatus for resuscitation of, (Kreiselman, Kane and Swope), 552

B

Bacterial endocarditis, subacute, of Streptococcus viridans type in pregnancy, with two case reports, (Walser), 840
Baldwin operation, operative technic in the, (Constantini), 734 (Abst.)
Basal metabolism before, during and after pregnancy, (Sandiford and Wheeler), 589 (Abst.)
during pregnancy, fetal and thyroid participation in the elevation of, (Garipuy, Lasalle, and Sendrail), 589 (Abst.)
internal secretion, and protein transformation in pregnancy, (Klaften), 589 (Abst.)
Bicornuate uteri, primiparae with, a study of pregnancy and parturition in, (Falls), 399, 440
uterus, report of a case of, (Steinharter and Brown), 558
Biochemical studies of human semen and its relation to mucus of the cervix uteri, (Kurzrok and Miller), 56
Birth canal injuries following delivery, immediate repair of, (Potter), 336, 447

*Index to pages of the Journal Vol. XV, January—June, 1928: January, pages 1-144; February, pages 145-294; March, pages 295-452; April, pages 453-594; May, pages 595-746; June, pages 747-904.

Birth—Cont'd
control, medical teaching on, the need for, (Giles), 744 (Abst.)
curves, the March peak of, (Wesselink), 685 (Abst.)
Bleeding uterus, etiology and treatment of, (Schmitz), 344, 438
Blood coagulability, research on the rôle of, in the production postoperative phlebitis, (Chauvin, Esmenard and Jaur), 741 (Abst.)
serum, maternal and fetal, determination of the calcium content of the, (Hellmuth), 585 (Abst.)
proteins in eclampsia, toxicity of, (Lash and Welker), 511
sugar, fluctuation in, during eclampsia and its relation to the convulsions, (Titus, Dodds and Willetts), 303, 442
free and combined, in the field of obstetrics and gynecology, (Scontrino), 586 (Abst.)
transfusions, effects of, on obstetric and gynecologic conditions, (Polak), 93
volume in pregnancy, studies of the increase in, (Bohnen and Borrman), 585 (Abst.)
Books received, 144, 294, 452, 746
Breast, fibroadenoma of the, (Ingraham), 521
pump, electric or Keith water power, a new style funnel for use with, (McNalley), 89
Broad ligament, hernia strangulated through the, (Stimson), 251
Brooklyn Gynecological Society, meeting of May 6, 1927, 248

C

Calcium content of serum in pregnancy, labor and the puerperium, (Bock), 585 (Abst.)
of the maternal and fetal blood serum, determination of the, (Hellmuth), 585 (Abst.)
regulation during pregnancy, examination of, (Hetenyi and Liebmann), 586 (Abst.)
Cancer, early diagnosis of, (Healy), 353, 435
of the uterine body, metastasis with, (Novak), 101
of the uterus, present status of therapy of, (Polak), 26
Cannula, a new uterine, (Levy), 712
Capillary pressure in the toxemias of pregnancy, (Mufson), 800
particularly during pregnancy and in the puerperium, (Grzechowiak), 587 (Abst.)
Carcinoma fundus uteri and pregnancy, coexistence of, (Schumann), 110
of the body of the uterus, (Smith and Grinnell), 832
Carcinoma—Cont'd
of the cervix treated between 1875 and 1927 at the Boston Free Hospital for Women, a report of cases of, (Smith, Smithwick and Rogers), 637
Cells, reticulo-endothelial, of the uterus, an experimental study, (Fluhmann), 783
Cephalic rotating forceps, (Moss), 709
Cerebral hemorrhage and encephalomalacia limited to the left frontal lobe, postpartum eclampsia with death from, (Binder), 849
Cervix after labor, immediate repair of, (Danforth), 505, 563
carcinoma of the, report of cases of, treated between 1875 and 1927 at the Boston Free Hospital for Women, (Smith, Smithwick and Rogers), 637
uteri, epidermidalization of, and its relation to malignancy, (Fluhmann), 1
mucous of the, human semen and its relation to, biochemical studies of, (Kurzrok and Miller), 56
uterine, conical excision of the, in endocervicitis, end results of, (Radoulovitch), 735 (Abst.)
Cesarean section, high anterior accidental fixation of uterus following, (Girvin), 875
scar of a previous, rupture of the uterus in the, occurring twice in the same patient within one year, (Gelpi), 85, 118
vaginal, is the, justified in placenta previa, (Essen-Möller), 612, 716
the place of the, in obstetrics, (Phaneuf), 325, 448
Chicago Gynecological Society, stated meeting, February 18, 1927, 255
meeting of March 18, 1927, 119
meeting of April 15, 1927, 562
meeting of June 17, 1927, 719
Childbirth, malignant psychoses related to, (Zilboorg), 145, 244
Circulation, maternal and fetal, studies in the distribution of sugar in the, (Hellmuth), 586 (Abst.)
Circulatory changes due to the climacterium and castration, especially in myomata, (Strassman), 882 (Abst.)
Climacterium, 880 (Abst.)
and castration, circulatory changes due to the, especially in myomata, (Strassman), 882 (Abst.)
vasalgias and hypertonias in the, (Wiesel), 881 (Abst.)
Clitoris, the region of the, (Temesvary), 289 (Abst.)

Clostridium welchii septicemia complicating prolonged labor due to obstructing myoma of the uterus, with report of case, (Toombs and Michelson), 379, 439

Coitus, delayed, the combination of a short menstrual cycle and, as a factor in sterility, (Kurzrok), 546

Collective reviews:
A review of the gynecologic literature for 1927, (Schochet), 722
New books, (Frank), 126
The gynecology of the ancients, (Lash), 262
The obstetric literature of 1927, (Greenhill), 569

Colpitis emphysematosa, (Heaney), 256

Colpodystrophia, postclimacterica, studies of, (Flatau and Herzog), 884 (Abst.)

Constant-temperature apparatus for use during continuous intravenous administration of fluids, (Watson), 865

Corpus luteum hematoma, (Wolfe), 513
is the, necessary for the physiologic completion of pregnancy in the human, (Ask-Upmark), 585 (Abst.)
tumor, a malignant, (Curtis), 120

Correspondence, 122, 291, 593

Curettage, early diagnostic, a plea for, and routine microscopy of curettings for the detection of adenocarcinoma of the uterus, (Ladin), 167

Cyst, ovarian, twisted, in five-year-old child, (Kincaid and Andrews), 207
ruptured endometrial ovarian, simulating perforated duodenal ulcer, (Block), 252

Cystocele and retroversion, a combined pessary for nonoperative palliative correction of, (Strongin), 220

Cysts, bilateral dermoid, of the ovaries, report of, in a young unmarried woman thirty-two years old, (Poppen), 236
endometrial, on the distribution of, (Goldstine), 191, 257

D

Defundation of the uterus as a conservative measure in myomas and hyperplasias of the endometrium, (Hertzler), 180

Delivery, birth canal injuries following, immediate repair of, (Potter), 336, 447

Dermoid cysts, bilateral, of the ovaries, report of, in a young unmarried woman thirty-two years old, (Poppen), 236

Dermoids, ovarian, theory and pathology of, (Levy), 117

Diabetes in pregnancy, (Petty), 253

Diagnosis, gynecologic, technic of intrauterine lipiodol injections in, (Hirst), 797, 879
of cancer, early, (Healy), 353, 435
of pregnancy, and the determination of sex by means of the interfereometer, (Kleesattel), 584 (Abst.)
by means of double test of alimentary acetonuria and glycosuria, (Aldersberg and Porges), 584 (Abst.)
early, by methods of precision, further observations on sugar tolerance tests, (Hirst and Long), 584 (Abst.)

Diathermy in gynecologic conditions, clinical end-results following, (Hyams), 224

Diecphalus, a case of, (Bland), 114

Disinfection of the vagina in all gynecological and obstetrical cases, (Ott), 735 (Abst.)

Diuresis and metabolism in pregnancy, effect of iodothyroglobulin on, (Mahnert), 589 (Abst.)

Douche nozzle, metal, (Mann), 877

Ductless glands, abnormalities of the, ovarian dysfunction dependent on, (Hirst), 79, 121

Duodenal ulcer, perforated, ruptured endometrial ovarian cyst simulating, (Block), 252

Dyspareunia, essential, (Edelberg and Galant), 288 (Abst.)

Dystopic pelvic kidney, single congenital, with rudimentary ureter; successful intercurrent labor, (Bullard and DuBois), 240

E

Eclampsia, blood serum proteins in, toxicity of, (Lash and Welker), 511
fluctuation in blood sugar during, and its relation to the convulsions, (Titus, Dodds, and Willetts), 303, 442
postpartum, with death from cerebral hemorrhage and encephalomalacia limited to the left frontal lobe, (Binder), 849

Ectopic gestation, etiology of, follicular salpingitis an important factor in, (Falk), 821
ovary, (Evans and Cade), 290 (Abst.)
pregnancy, an analysis of thirty-two cases of, and three suspected ectopic pregnancies, (Allen), 540, 566

Edema, pregnancy, studies in the origin of, (Kaboth), 807 (Abst.)
Encephalomalacia limited to the left frontal lobe, postpartum eclampsia with death from cerebral hemorrhage and, (Binder), 849
Endocarditis, subacute bacterial, of streptococcus viridans type in pregnancy, with two case reports, (Walser), 840
Endocervicitis, conical excision of the uterine cervix in, end-results of, (Radoulovitch), 735 (Abst.)
Endocrine therapy, (Frank), 40
Endometrial cysts, on the distribution of, (Goldstine), 191, 257
Endometriosis, peritoneal, due to the menstrual dissemination of endometrial tissue into the peritoneal cavity, (Sampson), 101
Endometrium, myomas and hyperplasias of the, defundation of the uterus as a conservative measure in, (Hertzler), 180
Endotrachelitis, chronic, (Sovak), 686, 873
Epidermidalization of the cervix uteri and its relation to malignancy, (Fluhmann), 1
Ergot poisoning postpartum, report of a case of, (Moskowitz), 549
Etiology and treatment of the bleeding uterus, (Schmitz), 344, 438
of ectopic gestation, follicular salpingitis an important factor in, (Falk), 821
Extrauterine and intrauterine pregnancy coexisting, with the report of a case and a study of thirty-five cases published since 1913, (Stein), 159

F

Fallopian tube, recurrent torsion of the, with hematosalpinx, (Casagrande), 49
Feeding, supplementary, of carbohydrate, the influence of, upon lactation, (Kleiner, Tritsch and Graves), 172
Female genitalia, pseudodiphtheria of the, (Sachs), 289 (Abst.)
sexual function, some disorders of the, of mental origin, (Brown), 528
Fetal and thyroid participation in the elevation of basal metabolism during pregnancy, (Garipuy, Lasalle and Sendrail), 589 (Abst.)
death, causation of, (Villarama), 815
postmortems, report on 320 at the Chicago Lying-In Hospital, (Serbin), 566, 682
Fibroadenoma of the breast, a case of, (Ingraham), 521
Fibromyoma, calcified, of uterus, report of a case of, (Troutt), 234
of the uterus, an unusual type of, (Sturgis), 250
Fistula, retrovaginal, complicated by a third degree tear, operation for, (Darner), 740 (Abst.)
vesicovaginal, thorough dissection of the anterior vaginal wall for closure, (Watkins), 740 (Abst.)
Fistulas after vaginal extirpation of the uterus, (Maiss), 741 (Abst.)
Fluctuation in blood sugar during eclampsia and its relation to the convulsions, (Titus, Dodds and Willetts), 303, 442
Follicular salpingitis, an important factor in the etiology of ectopic gestation, (Falk), 821
Forceps, cephalic rotating, (Moss), 709
obstetric, a new, (Barton, Caldwell and Studdiford), 16
an improved short, (Calhoun), 712
Fundal hysterectomy, remarks on the remote disturbance of, (Mayer), 736 (Abst.)
Fundus uteri, carcinoma of, and pregnancy, coexistence of, (Schumann), 110

G

Genital prolapse, vaginal operations for, development of, (Fothergill), 737 (Abst.)
Genitalia, female, pseudodiphtheria of the, (Sachs), 289 (Abst.)
Gentian violet, treatment of impetigo contagiosa with, (Holder), 857
Gestation, ectopic, etiology of, follicular salpingitis an important factor in the, (Falk), 821
in a monkey (Macacus Rhesus) and associated phenomena, (Hartman), 534
seven and a half months, a case of liver presentation in, (Gurdjian), 560
Gilliam operation, acute intestinal occlusion after the, (Peterson), 742 (Abst.)
Gordon of Aberdeen, (Thoms), 229
Gynecologic conditions, diathermy in, clinical end-results following, (Hyams), 224
diagnosis, technic of intrauterine lipiodol injections in, (Hirst), 797, 879
laparotomies, examination of the appendix and the indications for appendectomy in the course of 1400, (Beuttner), 739 (Abst.)
mortality and morbidity following, study of factors influencing, (Cooke), 743 (Abst.)

Gynecologic—Cont'd
literature for 1927, a review of the, (Schochet), 722 (Collective Review)
operations, 734 (Abst.)
some bad results in, (Ferber), 742 (Abst.)
therapy, hypogastric sympathectomy in, (Cotte), 745 (Abst.)
Gynecologist, what the, should know about urology, (Hunner), 453
Gynecology, lipiodol and roentgen ray as a diagnostic aid in, (Stone), 662, 719
of the ancients, (Lash), 262 (Collective Review)

H

Hematoma, corpus luteum, (Wolfe), 513
Hematosalpinx, recurrent torsion of the fallopian tube with, (Casagrande), 49
Hemiplegia, puerperal, (Eastman), 758
Hernia funiculi umbilicalis, with report of three cases, (Hebert), 86, 116
of the uterus and tubes through the inguinal canal (salpingohysterocele), with case report, (Sarnoff), 704
strangulated through the broad ligament, (Stimson), 251
Hydatidiform mole, is the expectant plan of treating, justified, (Bland), 390, 437
Hydrosalpinx, torsion of a, report of a case of, (Torland), 702
Hyperplasias and myomas of the endometrium, defundation of the uterus as a conservative measure in, (Hertzler), 180
Hypertension at the menopause, (Leconte), 882 (Abst.)
relation of, to arteriosclerosis, (Nielson), 212
Hypertonias and vasalgias in the climacterium, (Wiesel), 881 (Abst.)
Hypogastric sympathectomy, in gynecologic therapy, (Cotte), 745 (Abst.)
Hysterectomy, abdominal total versus, subtotal, (Masson), 110
fundal, remarks on the remote disturbance of, (Mayer), 736 (Abst.)
supravaginal, (Troutt), 234
vaginal, supravaginal, and total abdominal, a comparative study of the convalescence of one hundred and fifty selected cases of, (Bauer), 680, 720

I

Ileus after ventral fixation, (Markus), 742 (Abst.)
Impetigo contagiosa, treatment of, with gentian violet, (Holder), 857
Inclinometer, obstetric, (Jacobs), 689
Inflammation of the amnion and chorion, (Siddall), 828
Insemination, artificial, (Averett), 878
Instruments left in the peritoneal cavity, (White), 743 (Abst.)
Interfereometer, diagnosis of pregnancy and the determination of sex by means of, (Kleesattel), 584 (Abst.)
Interfereometric method of diagnosing pregnancy, is the, specific in its present form, (Hellmuth), 584 (Abst.)
Intestinal occlusion, acute, after the Gilliam operation, (Peterson), 742 (Abst.)
Intestine, eviseration of the, perforation of the uterus with, (Palmer), 288 (Abst.)
Intraligamentous pregnancy, a case of, at full term, (Magid), 859
Intrauterine and extrauterine pregnancy, coexisting, with the report of a case and a study of thirty-five cases published since 1913, (Stein), 159
lipiodol injections in gynecologic diagnosis, the technic of, (Hirst), 797, 879
Intravenous administration of fluids, continuous, a constant-temperature apparatus for use during, (Watson), 865
Inversion of the puerperal uterus, acute, abdominal reposition in, (Huntington, Irving, Kellogg), 34
Iodized oil instillation and the Rubin patency test, a new self-retaining instrument for the, (Stein and Arens), 707
Iodothyroglobin, effect of, on diuresis and metabolism in pregnancy, (Mahnert), 589 (Abst.)
Ischemia of the parturient uterus, (Thoms), 853
Item, 144, 239, 594, 745

K

Kidney, premature separation of the normally implanted placenta, with special reference to the, (Kellogg, Taylor, Eades, and Weller), 357, 451
single congenital dystopic pelvic, with rudimentary ureter; successful intercurrent labor, (Bullard and DuBois), 240

L

Labor, immediate repair of cervix after, (Danforth), 505, 563
impending, is the loss of weight at the end of pregnancy a sign of, (Biehl), 591 (Abst.)
prolonged, due to obstructing myoma of the uterus, clostridium welchii septicemia complicating, (Toombs and Michelson), 379, 439
separation of the symphysis pubis during, (Brehm and Weirauk), 187
venous pressure in, (Runge), 588 (Abst.)

Lactation, influence of supplementary feeding of carbohydrate upon, (Kleiner, Tritsch and Graves), 172

Laparotomies, gynecologic, examination of the appendix and the indications for appendectomy in the course of 1460, (Beuttner), 739 (Abst.)
mortality and morbidity following, study of factors influencing, (Cooke), 743 (Abst.)

Lipiodol and roentgen ray as a diagnostic aid in gynecology, (Stone), 662, 719
injections, intrauterine, in gynecologic diagnosis, technic of, (Hirst), 797, 879

Liver, pigment metabolism of the, in pregnancy, (Einfinger and Boder), 587 (Abst.)
presentation, a case of, in seven and a half months' gestation, (Gurdjian), 560

Lower uterine sement, observations on the nature and origin of, from a study of fresh uteri of women dying during pregnancy, labor and early puerperium, (Acosta-Sison), 770

M

Magnesium sulphate and morphine, the alleged synergism of, (Beckman) 72

Malignancy, epidermidalization of the cervix uteri and its relation to, (Fluhmann), 1

Malignant psychoses related to childbirth, (Zilboorg), 145, 244

Maternal and fetal blood serum, determination of the calcium content of the, (Hellmuth), 585 (Abst.)
circulation, studies in the distribution of sugar in the, (Hellmuth), 586 (Abst.)
mortality among Filipinos, (Sison), 744 (Abst.)

Maternal—Cont'd
morbidity and mortality, causes and prevention of, (Morris), 143 (Abst.)
welfare, department of, 237, 867

Maternity service second (Cornell) division, Bellevue Hospital, a report of five years' activities of the, (Bailey), 462

Medical center in New York begins operations, 594

Meninges, permeability of the, influence of menstruation and pregnancy on the, (Benda), 588 (Abst.)

Menopause, arthritis of the, (Cecil and Archer), 884 (Abst.)
artificial, basal metabolism after the, (King), 880 (Abst.)
disabilities of the, (Fothergill), 880 (Abst.)
hypertension of the, (Lecomte), 882 (Abst.)
relation of, to arteriosclerosis, (Nielson), 212
observations on the, (King), 880 (Abst.)
pregnancy after the, (Curtis), 119

Menstrual cycle, a short, the combination of a, and delayed coitus as a factor in sterility, (Kurzrok), 546

Menstruation and pregnancy, the influence of, on the permeability of the meninges, 588 (Abst.)

Metabolism and body weight in pregnancy, studies in changes in, (Mahnert), 590 (Abst.)
sugar increase in, produced by ovarian hormone, (Estes and Burge), 847

Mucus of the cervix uteri, human semen and its relation to, biochemical studies of, (Kurzrok and Miller), 56

Myoma of the uterus, prolonged labor due to obstructing, clostridium welchii septicemia complicating, (Toombs and Michelson), 379

Myomas and hyperplasias of the endometrium, defundation of the uterus as a conservative measure in, (Hertzler), 180

N

Nephritis of pregnancy, acute and chronic, prognosis in, from the standpoint of classification, (Mussey and Keith), 366, 448

New books, (Frank), 122 (Collective Review)

Newborn babies, asphyxiated, a new apparatus for resuscitation of, (Kreiselman, Kane and Swope), 552

New Orleans Gynecological and Obstetrical Society, meeting of April 7, 1927, 116
New York Obstetrical Society, meeting of May 10, 1927, 240
meeting of October 11, 1927, 714
meeting of November 8, 1927, 873
Nursing service, a frontier, (Breckinridge), 867

O

Obstetric and gynecologic conditions, effects of blood transfusions on, (Polak), 93
conjugate, true, pelvimeter for the direct measurement of the, (Smith), 556
forceps, a new, (Barton, Caldwell and Studdiford), 16
an improved short, (Calhoun), 712
inclinometer, (Jacobs), 689
literature of 1927, (Greenhill), 569 (Collective Review)
Obstetrical Society of Philadelphia, meeting of February 3, 1927, 111
meeting of March 3, 1927, 250
Obstetrics and gynecology, free and combined blood sugar in the field of, (Scontrino), 586 (Abst.)
in the home, modern, (Bloss), 424, 446
place of the vaginal cesarean section in, (Phaneuf), 325, 448
the time factor in, (De Snoo), 796 (Abst.)
Operation, Baldwin, operative technic in the, (Constantini), 734 (Abst.)
for creating an abdominal "shelf" in cases of visceroptosis in women, (Bonney), 738 (Abst.)
for cure of procidentia of the uterus, (Hertzler), 675
for prolapse and fixed retroflexion of the uterus, (Schubert), 748 (Abst.)
for retrovaginal fistula complicated by a third degree tear, (Darner), 740 (Abst.)
Gilliam, acute intestinal occlusion after the, (Peterson), 742 (Abst.)
vaginal plastic, congenital absence of the vagina treated by a, (Davis and Cron), 196, 256
Operations, gynecologic, 734 (Abst.)
some bad results in, (Ferber), 742 (Abst.)
vaginal, for genital prolapse, development of, (Fothergill), 727 (Abst.)
Ovarian cyst, ruptured endometrial, simulated perforated duodenal ulcer, (Block), 252
twisted, in five-year-old child, (Kincaid and Andrews), 207
Ovarian—Cont'd
dermoids, theory and pathology of, (Levy), 117
dysfunction dependent on abnormalities of the ductless glands, (Hirst), 79, 121
follicular hormone, the clinical use of, with special reference to functional sterility, (Hirst), 487
hormone, increase in sugar metabolism produced by the, (Estes and Burge), 847
metastasis with cancer of the uterine body, (Novak), 101
pregnancy, primary, (Stein), 255
true, (Bishop), 714
Ovaries, bilateral dermoid cysts of the, report of, in a young unmarried woman thirty-two years old, (Poppen), 236
Ovary and tube, actinomycosis of the, (Helwig), 288 (Abst.)
ectopic, (Evans and Cade), 290 (Abst.)
Ovum, transit of the, from the ovary to the uterus in rabbits, a contribution to the question of the, (Westman), 582 (Abst.)

P

Parturition, pregnancy and, in primiparae with bicornuate uteri, a study of, (Falls), 399, 440
Parturient uterus, ischemia of the, (Thoms), 853
Pathologic picture of syphilis, sex differences in the, (Warthin), 595
Pathology, symptomatology, and treatment of retroversion, observations on certain features of the, (Cooke), 493
Pelvic symptoms, nongenital in origin, in women, (Schumann), 202, 249
Pelvimeter for the direct measurement of the true obstetric conjugate, (Smith), 556
Peripheral venous pressure in the puerperal state, (Carulla), 588 (Abst.)
Peritoneal cavity, instruments left in the, (White), 743 (Abst.)
endometriosis due to the menstrual dissemination of endometrial tissue into the peritoneal cavity, (Sampson), 101
Pessary, a combined, for nonoperative palliative correction of cystocele and retroversion, (Strongin), 220
an improved type of, (Raudenbush), 877
Philadelphia Obstetrical Society, meeting of May 5, 1927, 875

Phlebitis, postoperative, blood coagulability in the production of, research on the rôle of, (Chauvin, Esmenard and Jaur), 741 (Abst.)
Physiology of pregnancy, 582 (Absts.)
of the amniotic fluid, (Keiffer), 592 (Abst.)
Pigment metabolism of the liver in pregnancy, (Enfinger and Boder), 587 (Abst.)
Placenta, partial hydatidiform degeneration of the, late in pregnancy, report of two cases of, (Allen), 694
premature separation of the, (Geothals), 627
normally implanted, a case of, with an unusual family history, (Miller), 227
normally implanted, with special reference to the kidney in these cases, (Kellogg, Taylor, Eades and Weller), 357, 451
previa, analysis of sixty-four cases of, (Douglass and Siegel), 671
is the vaginal cesarean section justified in, (Essen-Möller), 612, 716
Postmortem examinations on feti at the Chicago Lying-In Hospital, a report on, (Serbin), 566, 682
Postoperative phlebitis, blood coagulability in the production of, research on the rôle of, (Chauvin, Esmenard and Jaur), 741 (Abst.)
pyelitis, prophylaxis of, (Daunreuther), 406, 448
retention of urine, treatment of, (Hjelt), 741 (Abst.)
Postpartum eclampsia with death from cerebral hemorrhage and encephalomalacia limited to the left frontal lobe, (Binder), 849
Pregnancy, abdominal, a case of secondary, (Carrell), 111
acid-base balance in, (Gaebler and Rosene), 808
after the menopause, (Curtis), 119
and carcinoma fundus uteri, coexistence of, (Schumann), 110
and menstruation, the influence of, on the permeability of the meninges, (Benda), 588 (Abst.)
and parturition in primiparae with bicornuate uteri, a study of, (Falls), 399, 440
and the puerperium, capillary pressure during, (Grzechowiak), 587 (Abst.)
arrested, accessory uterus with, (Averett), 113
basal metabolism before, during and after, (Standiford and Wheeler), 589 (Abst.)
Pregnancy, basal metabolism—Cont'd
during, fetal and thyroid participation in the elevation of, (Garipuy, Lasalle and Sendrail), 589 (Abst.)
blood volume in, studies of the increase in, (Bohnen and Borrman), 585 (Abst.)
body weight in, studies in changes in metabolism and, (Mahnert), 590 (Abst.)
calcium regulation during, examination of, (Hetenyi and Liebmann), 586 (Abst.)
capillary pressure in the toxemias of, (Mufson), 800
diabetes in, (Petty), 253
diagnosis of, and the determination of sex by means of the interfercometer, (Kleesattel), 584 (Abst.)
by means of a double test of alimentary acetonuria and glycosuria, (Adlersberg and Porges), 584 (Abst.)
diuresis and metabolism in, effect of iodothyroglobulin on, (Mahnert), 589 (Abst.)
early diagnosis of, by methods of precision; further observations on sugar tolerance tests, (Hirst and Long), 584 (Abst.)
ectopic, an analysis of thirty-two cases of, and three suspected ectopic pregnancies, (Allen), 540, 566
edema, studies in the origin of, (Kaboth), 807 (Abst.)
extrauterine and intrauterine, coexisting, with the report of a case and a study of thirty-five cases published since 1913, (Stein), 159
in a rudimentary uterine horn, (Koplowitz), 248
interfercometric method of diagnosing, is the, specific in its present form, (Hellmuth), 584 (Abst.)
internal secretion in, (Klaften), 589 (Abst.)
in the human, physiologic completion of, is the corpus luteum necessary for the, (Ask-Upmark), 585 (Abst.)
interstitial tubal, with the report of a case, (di Palma), 699
intraligamentous, a case of, at full term, (Magid), 859
intrauterine and extrauterine coexisting, with the report of a case and a study of thirty-five cases published since 1913, (Stein), 159

Pregnancy—Cont'd
labor and early puerperium, observations on the nature and origin of the lower uterine segment from a study of fresh uteri of women dying during, (Acosta-Sison), 770
and puerperium, venous pressure in, (Runge), 588 (Abst.)
calcium content of serum in, (Bock), 585 (Abst.)
Ladin's sign of early, compared with Hegar's, (Tovy), 432
loss of weight at the end of, is the, a sign of impending labor, (Biehle), 591 (Abst.)
metabolism and body weight in, studies in changes in, (Mahnert), 590 (Abst.)
nephritis of, prognosis of acute and chronic, from the standpoint of classification, (Mussey and Keith), 366, 448
partial hydatidiform degeneration of the placenta late in, report of two cases of, (Allen), 694
physiology of, 582 (Abst.)
pigment metabolism of the liver in, (Enfinger and Boder), 587 (Abst.)
primary ovarian, (Stein), 255
protein transformation in, (Klaften), 589 (Abst.)
pyelitis in, (Danforth and Corbus), 90
renal function and, (Krauter), 591 (Abst.)
subacute bacterial endocarditis of streptococcus viridans type in, with two case reports, (Walser), 840
syphilis and, (Gammeltoft), 747, 873
thyroid gland in: a clinical study in a region of endemic goiter, (Yoakam), 617
toxemia of, a touch of patience and a grain of sense, 122
pounds of patience and a dash of nonsense, 291
toxemias of, capillary pressure in the, (Mufson), 800
true ovarian, (Bishop), 714
tubal, at term, (Williamson), 215
tubouterine, (DeLee), 120
unrecognized until term, a case of, (Beckers), 616 (Abst.)
vomiting of, (Speidel), 411, 442
with arterial hypertension and albuminuria, premature breech delivery, postpartum laparotomy, cholelithiasis, pancreatitis and glycosuria, a case of, (Synder), 566
Pregnant women, terminal loss of weight in, (Hirsch), 591 (Abst.)
terminal loss of weight in, (Kemper), 590 (Abst.)
Premature separation of the normally implanted placenta, a case of, with an unusual family history, (Miller), 227
of the normally implanted placenta, with special reference to the kidney in these cases, (Kellogg, Taylor, Eades and Weller), 357 451
of the placenta, (Goethals), 627
Presidential address—the American Association of Obstetricians, Gynecologists and Abdominal Surgeons, (Polak), 295
Primiparae with bicornuate uteri, pregnancy and parturition in, a study of, (Falls), 399, 440
Procidentia of the uterus, operation for the cure of, (Hertzler), 675
Prognosis in acute and chronic nephritis of pregnancy from the standpoint of classification, (Mussey and Keith), 366, 448
Prolapse and fixed retroflexion of the uterus, operation for, (Schubert), 738 (Abst.)
genital, vaginal operations for, development of, (Fothergill), 737 (Abst.)
therapy, (Bethin), 738 (Abst.)
Prophylaxis of postoperative pyelitis, (Dannreuther), 406, 448
Protein transformation in pregnancy, (Klaften), 589 (Abst.)
Proteins, blood serum, toxicity of, in eclampsia, (Lash and Welker), 511
Pseudodiphtheria of the female genitalia, (Sachs), 289 (Abst.)
Psychoses, malignant, related to childbirth, (Zilboorg), 145, 244
Pubiotomy, (DeLee), 562
Puerperal hemiplegia, (Eastman), 758
state, peripheral venous pressure in the, (Carulla), 588 (Abst.)
uterus, acute inversion of the, abdominal reposition in, (Huntington, Irving and Kellogg), 34
Puerperium, capillary pressure during, (Grzechowiak), 587 (Abst.)
venous pressure in, (Runge), 588 (Abst.)
Pyelitis in pregnancy, (Danforth and Corbus), 90
postoperative, prophylaxis of, (Dannreuther), 406, 448

R

Readers' forum, 261
Rectal stricture, a new technic and a new instrument for operating on, (Bacon), 432
Renal function and pregnancy, (Krauter), 591 (Abst.)

Resuscitation of asphyxiated newborn babies, a new apparatus for, (Kreiselman, Kane and Swope), 552
Reticulo-endothelial cells of the uterus, an experimental study, (Fluhmann), 783
Retrovaginal fistula complicated by a third degree tear, operation for, (Darner), 740 (Abst.)

Umbilical cord clamp, a new, (Hirst), 252
Ureter, rudimentary, single congenital dystopic pelvic kidney with; successful intercurrent labor, (Bullard and DuBois), 240
Urine, postoperative retention of, treatment of, (Hjelt), 741 (Abst.)
Urology, what the gynecologist should know about, (Hunner), 453
Uteri, bicornuate, primiparae with, study of pregnancy and parturition in, (Falls), 399, 440
Uterine body, cancer of the, ovarian metastasis with, (Novak), 101
cannula, a new, (Levy), 712
cervix, conical excision of the, in endocervicitis, end-results of, (Radoulovitch), 735 (Abst.)
horn, rudimentary, pregnancy in a, (Koplowitz), 248
segment, lower, observations on the nature and origin of the, from a study of fresh uteri of women dying during pregnancy, labor and early puerperium, (Acosta-Sison), 770
Uterus, accessory, with arrested pregnancy, (Averett), 113
adenocarcinoma of the, a plea for early diagnostic curettage and routine microscopy of curettings for the detection of adenocarcinoma of the uterus, (Ladin), 167
and tubes, hernia of the, through the inguinal canal, with case report, (Sarnoff), 704
bicornuate, report of a case of, (Steinharter and Brown), 558
bleeding, etiology and treatment of, (Schmitz), 344, 438
body of the, carcinoma of the, (Smith and Grinnell), 832
calcified fibromyoma of the, report of a case of, (Troutt), 234
cancer of the, present status of therapy of, (Polak), 26
carcinoma of the body of the, (Smith and Grinnell), 832
defundation of the, as a conservative measure in myomas and hyperplasias of the endometrium, (Hertzler), 180

Uterus—Cont'd
extirpation of the, by operation as well as by radiation, harmful results of, (Aschner), 883 (Abst.)
fibromyoma of the, an unusual type of, (Sturgis), 250
fixation of, high anterior accidental, following cesarean section, (Girvin), 875
ischemia of the parturient, (Thoms), 853
movements of the, observations on the, (Wijsenbeek and Grevenstuk), 582 (Abst.)
myoma of, prolonged labor due to, clostridium welchii septicemia complicating, (Toombs and Michelson), 379, 439
parturient, ischemia of the, (Thoms), 853
pedunculated cystic adenomyoma of the, occluding the vagina, (Saylor), 650
perforation of the, with evisceration of the intestine, (Palmer), 288 (Abst.)
procidentia of the, operation for the cure of, (Hertzler), 675
prolapse and fixed retroflexion of the, operation for, (Schubert), 738 (Abst.)
puerperal, acute inversion of the, abdominal reposition in, (Huntington, Irving and Kellogg), 34
reticulo-endothelial cells of the, an experimental study, (Fluhmann), 783
retrodisplacements of the, the significance of, and the principles involved in a satisfactory correction, (Hadden), 373, 432
rupture of the, in the scar of a previous cesarean section occurring twice in the same patient within one year, (Gelpi), 85, 118
vaginal extirpation of the, fistulas after, (Maiss), 741 (Abst.)

V

Vaginal, congenital absence of the, with report of two cases treated by vaginal plastic operation, (Davis and Cron), 196, 256
construction of a, by Schubert method followed by conception and labor, (Schubert), 735
disinfection of the, is indispensable in all gynecological as well as obstetrical cases, (Ott), 735 (Abst.)
double, as a cause of sterility, (Siegler), 701
Vaginal cesarean section, is the, justified in placenta previa, (Essen-Möller), 612, 716
the place of the, in obstetrics, (Phaneuf), 325, 448
extirpation of the uterus, fistulas after, (Maiss), 741 (Abst.)
operations for genital prolapse, development of, (Fothergill), 737 (Abst.)
plastic operation, congenital absence of vagina treated by, (Davis and Cron), 196, 256
speculum, self-retaining lateral, for cervical work, (Levy), 710
supravaginal, and total abdominal hysterectomy, a comparative study of the convalescence of one hundred and fifty selected cases of, (Bauer), 680, 720
Vaginismus, treatment of, (Reder), 421, 432
Vasalgias and hypertonias in the climacterium, (Wiesel), 881 (Abst.)
Venous pressure in pregnancy, labor, and puerperium, (Runge), 588 (Abst.)
peripheral, in the puerperal state, (Carulla), 588 (Abst.)
Ventral fixation, ileus after, (Markus), 742 (Abst.)
Vesicovaginal fistula, through dissection of the anterior vaginal wall for closure, (Watkins), 740 (Abst.)
Visceroptosis in women, operation for creating an abdominal "shelf" in certain cases of, (Bonney), 738 (Abst.)
Vomiting of pregnancy, (Speidel), 411 442
Vulva, unpigmented sarcoma of the, a case of, in a girl sixteen years of age, (Morgan), 861

W

Weight, body, in pregnancy, studies in changes in metabolism and, (Mahnert), 590 (Abst.)
in pregnant women, terminal loss in, (Kemper), 590 (Abst.)
in pregnant women, terminal loss of, (Hirsch), 591 (Abst.)
loss of, at the end of pregnancy, is the, a sign of impending labor, (Biehle), 591 (Abst.)
Women and children, save them, (Berkeley), 193 (Abst.)
pelvic symptoms nongenital in origin in, (Schumann), 202, 249

X

X-ray treatment of amenorrhea, with a report of thirty-eight cases, (Kaplan), 558
